Mastermind Testimonials

Adam Smallow

***President
Smallow Injury Lawyers***

"When I come to the in person masterminds, it's rocket fuel and I come back with all of these ideas and I know I can't swamp my entire team with 20 or 30 ideas."

Laura Baumgartner

***CEO
Dworkin & Maciariello***

"As a member, I've most benefited by being held accountable, setting goals. I generally set goals, I give myself a little leeway but with a group, it's harder to do that. It's you set the goals and you're accountable to others. And so it's been very helpful for me."

Llyod Baker

***Owner
Baker Injury Attorneys***

"It's amazing. There's just there's so much information, so many things that you learn, that you can implement in your business and that you just don't know. Especially attorneys, you are not really taught how to run a law firm, how to build a big business. And so, to actually have somebody teach you how to build a business, how to make it great."

Neil Dubowski

***Managing Partner
Dubo Law***

"Just having access to other attorneys and their staff members from other law firms has been an amazingly valuable resource for us at Dubo Law. Having the different topics each week for the weekly sessions and having my office manager be able to sit in on those as well has given us the opportunity already to gain information and then implement certain programs within our practice that have been helpful."

The industry's always changing, Google's always changing. So, any, any information we can get and bring back home and implement it in our own firm is always a good thing."
